What is the National Comedy Theatre?

The National Comedy Theatre is a high octane, audience-interactive comedy competition between two teams, comprised of New York's best improv comedians, who perform a series of games and scene all based on suggestions taken from the audience.

No two shows are ever the same because each show is completely improvised. The audience picks games, calls fouls and ultimately decides which team is the evening's winner. And it's CLEAN!

The NCT has performed across the country and around the world and is one of the few comedy shows that is suitable for all audiences.
